## **DEPARTMENT OF AGRICULTURE**

### **Office of the Secretary**

#### **Determination of Total Amounts of Fiscal Year 2020 WTO Tariff-Rate Quotas for Raw Cane Sugar and Certain Sugars, Syrups and Molasses**

**AGENCY:** Office of the Secretary, USDA.

**ACTION:** Notice.

**SUMMARY:** The Office of the Secretary of the Department of Agriculture (the Secretary) announces the establishment of the Fiscal Year (FY) 2020 (October 1, 2019 – September 30, 2020) in-quota aggregate quantity of raw cane sugar at 1,117,195 metric tons raw value (MTRV), and the establishment of the FY 2020 in-quota aggregate quantity of certain sugars, syrups, and molasses (also referred to as refined sugar) at 192,000 MTRV.

**DATES:** The aforementioned in-quota aggregate quantities are established as of [INSERT DATE OF PUBLICATION IN THE *FEDERAL REGISTER*].

**ADDRESSES:** U.S. Department of Agriculture, Foreign Agricultural Service, Import Policies and Export Reporting Division, Stop 1021, 1400 Independence Avenue, SW, Washington, DC 20250-1021.

**FOR FURTHER INFORMATION CONTACT:** Souleymane Diaby, (202) 720–2916, [Souleymane.Diaby@fas.usda.gov](mailto:Souleymane.Diaby@fas.usda.gov).

**SUPPLEMENTARY INFORMATION:** The provisions of paragraph (a)(i) of the Additional U.S. Note 5, Chapter 17 in the U.S. Harmonized Tariff Schedule (HTS) authorize the Secretary to establish the in-quota tariff-rate quota (TRQ) amounts

(expressed in terms of raw value) for imports of raw cane sugar and certain sugars, syrups, and molasses that may be entered under the subheadings of the HTS subject to the lower tier of duties during each fiscal year. The Office of the U.S. Trade Representative (USTR) is responsible for the allocation of these quantities among supplying countries and areas.

Section 359(k) of the Agricultural Adjustment Act of 1938, as amended, requires that at the beginning of the quota year the Secretary of Agriculture establish the TRQs for raw cane sugar and refined sugars at the minimum levels necessary to comply with obligations under international trade agreements, with the exception of specialty sugar.

The Secretary's authority under paragraph (a)(i) of the Additional U.S. Note 5, Chapter 17 in the U.S. Harmonized Tariff Schedule (HTS) and Section 359(k) of the Agricultural Adjustment Act of 1938, as amended, has been delegated to the Under Secretary for Trade and Foreign Agricultural Affairs (7 CFR 2.26).

Notice is hereby given that I have determined, in accordance with paragraph (a)(i) of the Additional U.S. Note 5, Chapter 17 in the HTS and section 359(k) of the 1938 Act, that an aggregate quantity of up to 1,117,195 MTRV of raw cane sugar may be entered or withdrawn from warehouse for consumption during FY 2020. This is the minimum amount to which the United States is committed under the WTO Uruguay Round Agreements. I have further determined that an aggregate quantity of 192,000 MTRV of sugars, syrups, and molasses (refined sugar) may be entered or withdrawn from warehouse for consumption during FY 2020. This quantity includes the minimum amount to which the United States is committed under the WTO Uruguay Round Agreements, 22,000 MTRV, of which 20,344 MTRV is established for any sugars,

syrups and molasses, and 1,656 MTRV is reserved for specialty sugar. An additional amount of 170,000 MTRV is added to the specialty sugar TRQ for a total of 171,656 MTRV.

Because the specialty sugar TRQ is first-come, first-served, tranches are needed to allow for orderly marketing throughout the year. The FY 2020 specialty sugar TRQ will be opened in five tranches. The first tranche, totaling 1,656 MTRV, will open October 1, 2019. All specialty sugars are eligible for entry under this tranche. The second tranche of 50,000 MTRV will open on October 9, 2019. The third tranche of 55,000 MTRV will open on January 22, 2020. The fourth tranche of 35,000 MTRV will open on April 15, 2020. The fifth tranche of 35,000 MTRV will open on July 15, 2020. The second, third, fourth, and fifth tranches will be reserved for organic sugar and other specialty sugars not currently produced commercially in the United States or reasonably available from domestic sources.

\* Conversion factor: 1 metric ton =1.10231125 short tons.

**Dated:** 13 June 2019.
